Mr. Harry Sneh  
Department of Health Services  
Hazardous Waste Management Branch  
107 South Broadway, Room 7128  
Los Angeles, CA 90012

Ref: 14 June 1983 Letter to John Hinton

Dear Mr. Sneh:

In accordance with our telephone conversation of October 5, 1983, I am writing this letter to request a variance from the Hazardous Waste Facility permit provisions at three of our five facilities in the San Diego area.

These facilities generate small quantities of waste oils and solvents. The test centers at Sycamore Canyon and Plant 19 both generate 15 to 20 drums per year. The Harbor Drive test site generates 3 to 5 drums per year.

A variance is required in order to permit the transportation of generated waste to the waste facilities at the Kearny Mesa and Lindbergh Field plants until disposition to a T.S.D.F. When transported between plants, the waste will be manifested and the 90 day storage provision of the regulations will be observed from the time of generation. It is also required to provide for the return of all empty drums from all Convair locations to the Kearny Mesa plant for disposition to the original supplier or drum recycler.

The granting of this variance will provide a more organized means of control and disposal of these waste materials.

If you have any further questions, please contact me at 619-692-8585.

Sincerely,

A. V. Skiles III
